**Purpose:** To keep the JIL water sub accounts and its customers water sub accounts aligned.

**Scope:** Applies to all shareholders and water users in JIL

**Issue:** Water users (customers) in JIL may have Hold water on their sub account whereas JIL may not have any Hold water on its' bulk water licence. This could lead to distortions of available Take water within JIL if Hold water transfers out are not monitored.

For example on 1<sup>st</sup> July, 2013 there was 3300 ML of Hold water on customer's accounts and 0 ML on the JIL bulk water licence.

**Policy:** Hold water cannot be transferred out of JIL unless approved by the Manager.

Hold water can be transferred within JIL.

Hold water may be used, under certain conditions, if approved by the Manager.
