

**POLICY:** Temporary Transfer Policy

**POLICY NUMBER:** 008

**REVISION DATE:** December 2018

**REVISED BY:** Policy & Compliance Committee

**APPROVED BY:** JIL Board

---

**Purpose:** To provide parameters for temporarily transferring water into or out of the JIL District.

**Scope:** All temporary transfers into and out of the JIL District.

**Procedure:**

***Temporary Transfers (Into)***

1. Only available on successful application.
2. Environmental Assessment (Jemalong Irrigation Management).
3. All transfer costs to be borne by the individual, not JIL.
4. JIL will not order/deliver customer water transferred through Water NSW until the associated transfer is complete.
5. Normal Water Sharing Plan operating parameters/conditions will apply to all temporary water transferred in. This includes but is not limited to if the dam “spills”, where the GS temporary water balance will be reset to the announced spill reset.

***Temporary Transfers (Out)***

1. Only available on successful application.
2. The “Temporary Transfer Exit Charge” (as per the JIL Water Charges Schedule) applies to all water transferred out that was on the JIL licence as a result of an Available Water Determination.
3. No “Temporary Transfer Exit Charge” is payable by the transferor for resale/transfer back to the river if the temporary water transferred into JIL, is transferred out within the same water year or the water year immediately following the water year it was transferred in
4. Shareholder accounts must be not be overdue in order to trade.
5. All transfer costs to be borne by the individual, not JIL.
6. No transfer will be considered until all required authorisations are completed.
